## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Muller. Muller shows the use of a headrest having a stationary support part (26) and an impact element (45) that is mounted to the support part via a pair of upper and lower levers (24,2539,40) of a four bar linkage. Muller shows that at least one hinge point (41,42) of the four bar linkage is displaceably within an elongated hole (37,38). Muller further discloses that a comfort adjustment of the headrest impact element comprises an upper hinge point of the upper levers being displaced in an elongated hole (see Figs. 5-6).

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference Nos. 6,824,212, 6,805,411, 6,688,697, 6,250,714, and 6,213,548, show features of the claimed invention.
